12901 Tapadero Dr. ◇ Austin, Texas, 78727

EXPERIENCE

Threatgrid at Cisco

Jun 2017 - present

Senior Frontend Software Engineer

- Applied management techniques to co-lead a frontend engineering team
- Installed single source state management for 30% faster development time
- Upgraded a frontend JS single page app to a clojurescript app
- Introduced systematic code cleaning which eradicated 97% of bike-shedding

ROKT

May 2016 - May 2017

Senior Data Engineer Contractor

- Mentored developers regarding Clojure best practices, style, and team culture
- Implemented and maintained self-serve UI for Advertiser APIs which lead to 80% fewer API support requests
- Lead multiple workshops ranging from Emacs, Higher Order Functions, and re-frame

Fetchh.io

Mar 2015 - Apr 2016

Technical Co-Founder

- Designed, developed, and deployed entire SPA, Clojure backend, and Postgres infrastructure
- Rolled an analytics platform to measure user behavior (sql queries + Google Analytics + Intercom.io)
- Reverse engineered postage carrier APIs and placed thousands of shipments
- Architected a system to track parcels and automatically inform customers about the status of thousands of shipments
- Sent highly customized marketing through Etsy's in-app messaging protocol
- Raised 150k Angel Round

Staples Inc. (Staples SparX)

Mar 2014 - Feb 2015

Software Engineer

- Lead developer for the SparX reporting platform
- Improved SparX's A/B testing platform, getting it into production 3 months ahead of schedule

Oxygen Cloud Inc.

Aug 2013 - Feb 2014

Software Engineer

- Engineered a compatibility layer which linked ftp into the Oxygen Cloud file system
- Mentored 3 new team-mates to successfully build compatibility layers for WebDAV, SFTP, and Samba

TECHNICAL STRENGTHS

Backend Development

Clojure Postgres Python API Architecture

Frontend Development

JS React ClojureScript Re-Frame HTML CSS

Dev Ops

Ubuntu Python lein nrepl bash git Jenkins

EDUCATION

University of California at Davis

Jan 2009 - Jan 2013

Bachelor of Science
